## MASTER

### Multi-post Sections

#### Heart of the MASTER Filing System

It is this MASTER Multi-post Section that sets the Master Filing System apart . . . that qualifies it better to serve business, science and industry in this Age of Achievement. Instant reference . . . self-locking triggers with fingertip release . . . availability for any punching specifications . . . are features which make MASTER Filing Systems and Sales Equipment highly desirable and readily adaptable. Patented features permit only imitations—no other sections operate with similar efficiency. MASTER Multi-post Sections fit all MASTER filing equipment and sales binders, and are interchangeable. Available in two widths, Single and Double.

**SINGLE** (Code MPS)—to accommodate 1-inch of filed references is most satisfactory for easy to file systems, and is recommended for general loose leaf filing.

**DOUBLE** (Code DMP) maximum filing capacity of 2  $\frac{3}{16}$  inches. Recommended for use when single volume of material exceeds one inch in thickness.

**BOTH SINGLE AND DOUBLE SECTIONS CAN BE USED (AND MIXED) IN ALL MASTER MULTI-POST EQUIPMENT**

For Specifications, See Page 7

## MASTER

### Multi-post Sectional Sales Equipment

—incorporate the exclusive MASTER Multi-post Sections to bring you the handsomest, most modern and efficient sales cases and binders in use today. Here is the sales case and binder which says you are in step with modern achievement, which makes your presentation a revelation to your prospect, and a joy to yourself.

For Specifications, See Page 22

## MASTER

### Compression Binders

—offer the ultimate in design and efficiency to those who prefer the compression-type binder. MASTER'S exclusive "TRIGGER-LOK" has brought about a new concept of quick change convenience. Simplicity of operation makes it fool proof.

For Specifications, See Page 22

## MASTER

### Multi-post Sectional Filing Cabinets

—are available to fit every need and any budget. Simple, but highly efficient utility cabinets are unbelievably low priced. *Deluxe Models* offer years-ahead design and performance . . . and they, too, are economical. Deluxe Model 22 shown.

Fully detailed on Page 4

# SECTIONAL FILING CABINETS

## "ADD-ON" SECTIONAL BASES

Models 6 and 12

### STURDY—LOW ANGLE—ADJUSTABLE WINGS

Made of sturdy heavy metal and standing at 30° reading angle, this is the ideal unit for close desk or counter use. Adjustable wings permit great flexibility, from a few inches to full filing capacity. Beautifully finished in durable crackle gray or black.

*"Black shipped unless otherwise specified".*

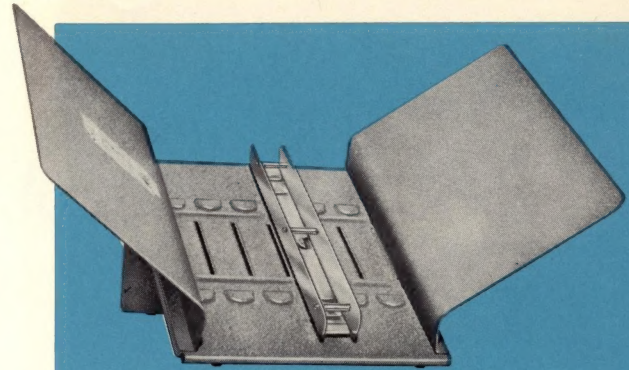

Available in two sizes. No. 6 accommodates up to six 1-inch sections; No. 12 accommodates up to 12 sections. (Each DMP (double) section replaces two 1 inch sections).

Any "add-on" base can be attached to any other "add-on" base of the same angle. Extension units can be attached to any "add-on" base. Thus capacity is unlimited.

X6 Extension Units Fit Both Models (see below)

Model No.	Approx. Shipping Wt.
6	5 lbs.
12	7 lbs.

For Specifications, See Page 8

Model No. 6

## "ADD-ON" SECTIONAL BASES

Models 906 and 912

### HI-ANGLE—VERSATILE—STURDILY BUILT

Identical in construction to the low angle above, but inclined at 45° to give better visibility when reading at a distance. Recommended for desk installation. This design is ideal for filing loose leaf reference. Sturdy—long lasting—black or crackle gray finish.

*"Black shipped unless otherwise specified".*

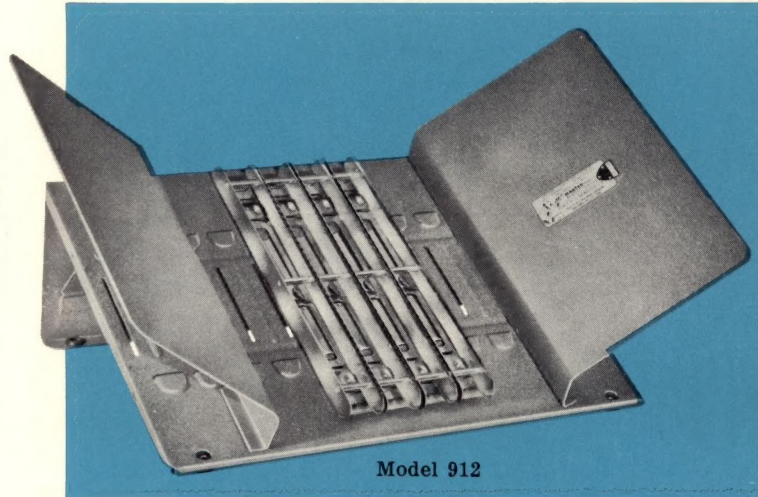

Available in two sizes. No. 906 accommodates 6 sections; No. 912 has a 12-section capacity. DMP (double) sections available for each model; each DMP section replaces two 1 inch sections.

Sections Ordered and Priced Separately, See Page 7

X906 Extension Units Fit Both Models (see below)

Model No.	Approx. Shipping Wt.
906	6 lbs.
912	8 lbs.

For Specifications, See Page 8

Model 912

## "ADD-ON" SECTIONAL EXTENSIONS

Model X6 Low Angle 30° — Model X906 Hi-Angle 45°

### CONVENIENT—QUICK—COMPACT

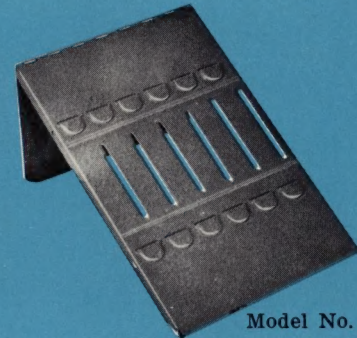

With these extensions you can't outgrow your file. Simply add an extension when you need more space. Designed to fit all Add-On Sectional bases. A simple spring fastener rigidly connects the base and the extension units—no screws or bolts required. The same Multi-post Filing Sections, both double and single, fit all bases and extensions. Support wings come only with the basic unit. Each unit is especially packaged for storage in limited space.

Specify angle of base when ordering

Sections Ordered and Priced Separately, See Page 7

Model No.	Approx. Shipping Wt.
X6	3 lbs.
X906	4 lbs.

For Specifications, See Page 8

Model No. X6

## UTILITY BASES

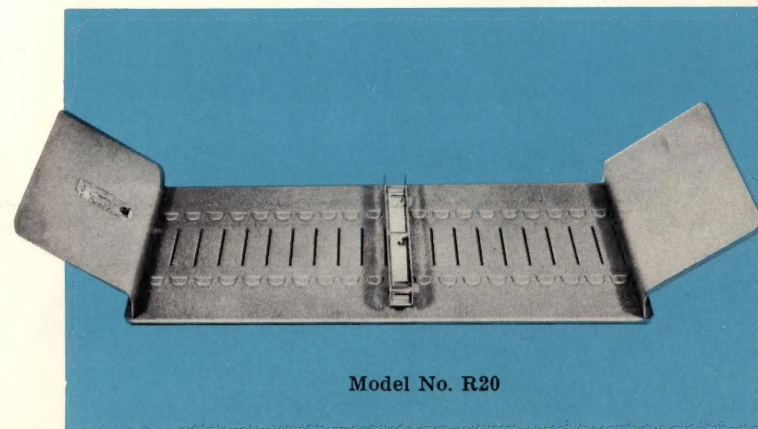

Models R6, R12, and R20

**EXCEPTIONAL VALUE—STURDY—20 SECTIONS**  
These Utility Bases are widely used in government and by manufacturers and researchers for reasons of economy—save dollars and space. Sturdy, heavy metal with back height of 5-inches—finished only in crackle office gray. Full capacity: 20 single 1-inch sections or 10 double sections. Also available in Hi-Back 45° Angle.

Sections Ordered and Priced Separately, See Page 7

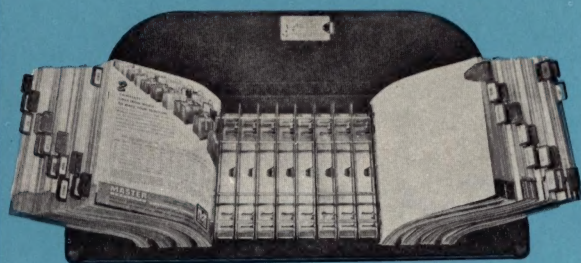

Model No.	Approx. Shipping Wt.
R6	5 lbs.
R12	6 lbs.
R20	9 lbs.

For Specifications, See Page 8

Model No. R20

Model 22

## SECTIONAL FILING CABINETS

### MASTER Deluxe Filing Cabinet

Model 22

**SAVES TIME AND MONEY—FITS EVERY NEED**  
 Beautifully designed—built of heavy metal—and attractively finished in black or crackle gray. Comes with supporting wings, adjustable outward to full capacity as sections are added. Capacity is 22 single 1-inch sections, or 22 inches of filing reference. Here is the ideal Filing Cabinet that fits readily into the most modern decor, and is in step with smart business procedure.

**BE SURE TO ORDER MODELS LARGE ENOUGH TO ACCOMMODATE GROWING REFERENCES**

*"Black shipped unless otherwise specified".*

Sections Ordered and Priced Separately

Approx.

Shipping Wt.

19 lbs.

For Specifications, See Page 8

### MASTER Deluxe Filing Cabinet

Model F-28

28 Sections—And a Lighting Fixture

Same construction as Model 22, described above, but with larger filing capacity (28 1-inch sections). (F) in a model number denotes "with lighting attachment." This attachment is designed to utilize finest fluorescent tubes, providing adequate *cool* light which is easy on the eyes. All light units have 6-ft. cords. *Fluorescent tubes not supplied.* All lighting attachments can be ordered separately.

*"Black shipped unless otherwise specified".*

F-28 uses a standard 24" Fluorescent Tube.

Sections Ordered and Priced Separately

Approx.

Shipping Wt.

33 lbs.

For Specifications, See Page 8

### ADVERTISING PANEL

#### For Master Deluxe Filing Cabinets

SMART—PRACTICAL—PROFITABLE

Many installations are made in areas which are suited to attract the eye of the customer. A translucent panel in the lighting fixture (*described above*) is specifically for the use of printed advertising. Any desired advertisement can be imprinted therein, and printing will be supplied with your order if you will enclose copy. Standard rate—one or two lines—in one color, \$7.50. When special art and layout are required, send us your sketch for special quotation. Size of the advertising space is 19 1/4 x 3 3/4 inches.

### MASTER Deluxe Filing Cabinet

Model 48

**LARGEST CAPACITY—IDEAL FOR 60" DESK**  
 FORTY-EIGHT single 1-inch sections are accommodated in this long and lasting cabinet of sturdy metal construction, finished in black or crackle gray. Anyone using bulky references—catalogs, tariffs, specifications, regulations, etc.—will find this cabinet perfect. File everything in one place . . . in one modern easy-to-get-to system that takes the files out of desk drawers and puts them desk-top for absolute, time-saving efficiency. Model 48 fits perfectly across the rear of a 60-inch desk.

*"Black shipped unless otherwise specified"*

Sections Ordered and Priced Separately

Approx.

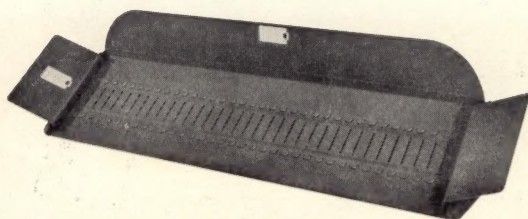

Shipping Wt.

35 lbs.

For Specifications, See Page 8

Model F-28

Model 48

# SECTIONAL FILING CABINETS

## YOU CAN'T OUTGROW YOUR FILE!

With MASTER "Add-On" sectional bases, your file grows as you need it. Start with two sections, six, twelve, whatever you require, and add extension units when needed. A simple spring fastener connects base and extension unit . . . and *anyone* can do it. Keep extensions ready a week or two ahead.

Model No.	Approx. Shipping Wt.
6	5 lbs.
12	7 lbs.

For Specifications, See Page 8

## HANDY SPACE FOR TEMPORARY FILING!

### WP

MASTER Wing Pockets slip on the wings easier than milady can slip on a glove. They are made of metal, provides a rigid (open) pocket which is handy for temporary filing, or as a receptacle for holding data if the person using the system has to leave, answer the phone, etc. An excellent accessory.

When ordering specify gray or black to match your cabinet.

Approx. Shipping Wt.
1 lb.

For Specifications, See Page 8

## MASTER WINGS ARE ADJUSTABLE!

### MW

MASTER Wings on all Sectional Bases act as supports for the filed pages, and provides a good writing surface. They are therefore adjustable from one section to full capacity. Adjustment requires only that the wing be lifted out and placed into the desired slot. No system is easier or more efficient.

Approx. Shipping Wt.
2 lbs.

For Specifications, See Page 8

## MASTER TURNTABLE PIVOTS 360°!

### T-6612

Two or a half-dozen can use the MASTER Filing System at one and the same time, without moving from their seats, simply by mounting the cabinet (6 to 12 sections) on the MASTER turntable attachment Adaptable to low or hi-angle bases. Installation is made by slipping base into slot provided.

When ordering specify gray or black to match your cabinet.

Approx. Shipping Wt.
5 lbs.

For Specifications, See Page 8

## EXTENDED WINGS FOR WIDE SHEETS!

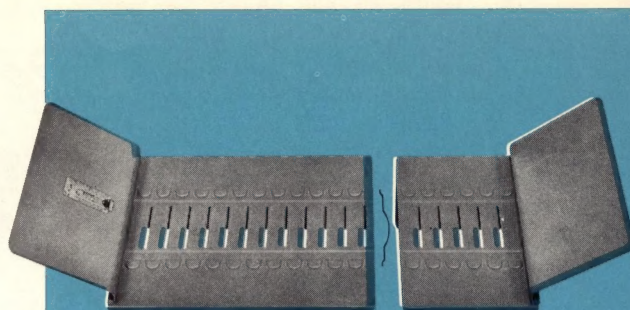

### EMW

Cabinets are regularly supplied with wings to accommodate 11x8½ sheets. Extended wings are available, however, for 11" x 11" to 11" x 14" sheets. If you have need for extended wings be sure and specify when ordering—a saving is involved.

When ordering specify gray or black to match your cabinet.

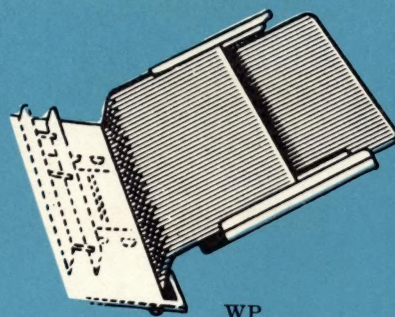

Approx. Shipping Wt.
3 lbs. per pair

## MASTER RING SECTION

**FITS ALL MASTER CABINETS AND BASES**

*Designed for Fast Changing of LOOSE LEAF Sheets—Saves 50% of Time!*

Keep Modern with Masters' New Ring Section

Faster Sheet Changes

Slide Up  
to open

Slide  
Down  
to close

Easy Operation  
One piece construction

Complete Readability

The MASTER Ring Section is the newest concept in Visible Sectional Filing—designed to permit faster sheet changes because of one piece construction. This highly efficient Ring Section is removable and may be loaded on either side of the split ring. The new Ring Section provides greater visibility of contents, has greater efficiency because of ease and speed of sheet changing, making it a *must* item for those who realize that time is money. The new Ring Section has a one inch capacity and when in use, open or closed, allows complete readability of contents.

The New Ring Section fits all MASTER Cabinets and Sales Cases.

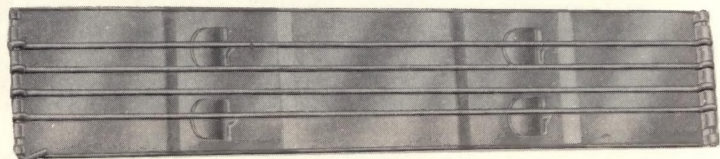

Code	Capacity	Approx. Shipping Wt.	Packaged
RS	1"	1/3 lb.	12 per carton

For Specifications, See Page 7

## The MASTER Bar Section . . .

BS

BD

In order to accommodate bound references which cannot be conveniently punched, including plastic or wire binding, Master Products has developed this new section, single and double, which can be used in any Master Cabinet or Sales case along with Standard and Ring Sections. This new section will accommodate a binding edge up to 1 1/4 inches.

Code	Capacity	Approx. Shipping Wt.	Packaged
BS	1"	1/3 lb. ea.	Singly
BD	2"	1/2 lb. ea.	Singly

## The MASTER Adapter for Bound Reference Material

This adapter is still available for filing stitched, stapled or bound material of practically any size. The adapter can be used with all Master Sections and will conveniently accommodate any length binding edge up to 14".

Approx. Shipping Wt.  
1 lb.

Packaged  
12 per Display Carton  
See Price List

# The Longtime Standard of the MASTER Filing System

## The MASTER MULTI-POST SECTION

MPS-3

### The Exclusive Patented Multi-Post Section

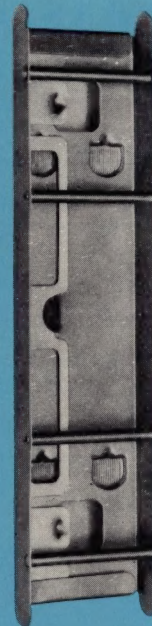

This section is available with any required number of posts from 2 to 14—to accommodate any punching. These sections slip together with a self-locking action which holds sheets securely until unlocked. Simple fingertip action effects the unlocking for quicker and easy sheet changing.

When the section is closed, it slips into rigid slots in the MASTER Base, extension, cabinet, or sales case quicker than you can bat an eye. It releases as quickly. Filed material is visible, easily located, and at a convenient reading angle.

There are *two* widths—SINGLE (Code MPS)—which holds 1-inch of reference (some 240 pages of 16 lb. paper), and DOUBLE (Code DMP) which has capacity of  $2\frac{3}{16}$ -inch of material. The Double Section replaces *two* SINGLE Sections. They may be mixed and interchanged at will. See Specifications Below.

Code	Capacity	Approx. Shipping Wt.	Packaged
MPS	1 inch	$\frac{1}{3}$ lb.	12 per carton
DMP	$2\frac{3}{16}$ inch	$\frac{1}{2}$ lb.	

DMP-4

*The challenge has been met - the Master Ring Section - the Standard Section - the Bar Section - and the Adapter now permit the filing of all types of loose-leaf and bound references in Master Cabinets and Sales Cases for immediate ready reference.*

## MASTER METHOD INDEXES WERE DESIGNED EXPRESSLY TO SOLVE THE INDEXING PROBLEMS OF THE AUTOMOTIVE TRADE

MASTER METAL tab standard index sets and index sheets are flexible indexes for visible and horizontal filing of loose-leaf reference material. They are available in standard sets indexed for alphabetical, numerical, chronological and subject filing, with a variety of *metal tabs*, tab windows, sizes, materials, tab positions and punchings.

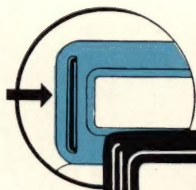

Prepared automotive titles in comprehensive books for immediate use are available. See page 17.

Model F28  
Fully detailed on page 4

Metal Tab  
Light Weight

Long Lasting  
Rust Proof

### MASTER SLIP-LOK TABS

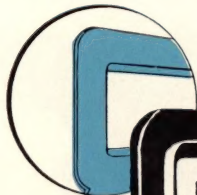

MASTER SLIP-LOK *metal tab* indexes give you full freedom in making your own index system and changing it whenever required. *MASTER'S metal tabs* are rust-proof and riveted to tough fully flexible index sheets assuring long, useful life. Full view windows on both sides.

The MASTER SLIP-LOK index system provides extreme flexibility and titles may be selected from our stock which has thousands of titles; or you may send your own special list of titles to us for printing and we will install them; or you may type your own titles on the supplied blank inserts and slip them into the tabs yourself. The SLIP-LOK tabs and titles are illustrated on the right hand margin of this page. For further information see pages 10 to 12.

### MASTER PERMA-SEAL METAL TABS

The original sealed tab. Specify PERMA-SEAL tabs if you are certain of your titles and don't anticipate changing them. A wide variety of titles are stocked to meet your needs. Also available in bulk.

MASTER titles are carefully engineered and cover the entire field of automotive products, parts, supplies, tools and manufacturer's names. Index titles may be obtained in sets permanently sealed in metal tabs as illustrated on pages 14, 15 and 16. If special titles are required simply send us your list and we will do the rest.

## MASTER INDEX SYSTEM No. W76

A comprehensive automotive index system specifically adapted for improved use with the Weatherly index. It combines 16 numerical divisions and 60 basic subject titles for a balanced index system. The advantages are obvious for even a "green" person can find the desired reference.

Each title is permanently sealed in metal tabs. The primary numerical divisions are color-coded for instant reference.

The system may be expanded by ordering additional index sheets—see page 10. Your choice of index sheet material—strong Pressboard or durable Morocco.

*All index sheet materials furnished in black.*

See Price List

# MASTER Basic Index Sets

with Metal PERMA-SEAL Tabs

Designed for the Automotive Jobber

A403P Pressboard  
A403M Morocco

A405P Pressboard  
A405M Morocco

If you want the best balanced index set for organizing your catalogs, price sheets and loose leaf reference material, then order a MASTER BASIC INDEX SET. It covers the entire field of automotive products, services, parts, supplies, equipment and tools. The 40 titles are *permanently sealed in metal tabs*. Each title is printed in large bold type and is easily visible from both sides through clear transparent green windows. The often referred to title PRICES is given instant identity by use of an amber window and central tab placement.

It may be purchased in both three and five "position" as shown. The three "position" set is recommended for those planning on extensive expansion. Your choice of index sheet materials—strong Pressboard or durable Morocco.

*All index sheet materials furnished in black.*

See Price List

# MASTER INDEX and FILING ACCESSORIES

## PRODUCT and MANUFACTURER TITLEBOOKS with the BUILT IN WINDOWS

From the MASTER INDEX LIBRARY of Titles has come two comprehensive books listing the *important hundreds* of AUTOMOTIVE PRODUCTS AND MANUFACTURERS. Each title is printed both sides in large bold type on heavy 4 ply index board. A laminated plastic completely covers each title providing "built in" windows. Each title is sharply perforated for easy individual removal and is designed to fit perfectly into a MASTER No. 125 SLIP-LOK Metal Tab.

Titles are cross indexed for individual preference. The book covers are of heavy 150# protective stock for storage and future use.

Books may be ordered individually or in combinations.

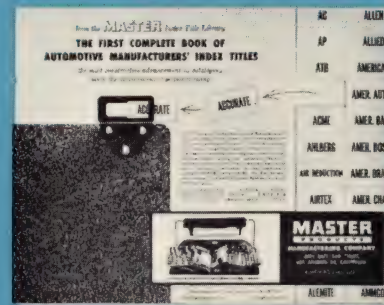

Stock No.	Description
PTB-8	Product Title Book
MTB-6	Manufacturers Title Book
PMTB-14	Both Product & Manufacturers Title Books

For further information see pages 12, 14 and 15.

## The MASTER SALES BINDER

The Time-proven utility sectional binder.

Model 611

This open type unit with the same workmanship and materials used in "the Streamliner", has satisfied thousands of users who provide our most effective sales argument in the case of this superb-binder. Created to give rugged wear and instant reference, this open type binder meets the salesman's need for a practical sales binder—made of 7 oz. top grain genuine saddle leather in Black or English Tan. New improved reinforced handles—available in seven sizes with capacities from 3 to 12 removable one inch sections.

A complete one inch section is inserted—removed or changed *in just seconds* by a simple touch of the fingertips. Any style Multi-Post section fits this binder and is interchangeable with any Master Cabinet or base for seasonal storage or transfer. Special Button over handle flaps and weather flaps are available on special order. This open sales binder is easy to carry and provides a maximum display of reference material with a minimum of effort.

Not subject to Federal Excise Tax

MODEL 111

MODEL 211

Model 111 and Model 211 available with handles.

One 1-inch section only can be used with Model 111. Model 211 will accommodate 1 DMP (double) Multi-post section or two regular (1-inch) sections. Page size, 11" x 8½". Sections are interchangeable with all Master Sectional Filing Equipment.

# MASTER Trigger-Lok Compression Binder

Has Exclusive Trigger Control —

Exclusive "Trigger-Lok" control makes this the world's finest heavy duty compression type binder. Simply press the "Trigger-Lok" and the book releases to an easy-to-read position for a most impressive presentation. Finest 7-oz. prime top grain leather covers in either black or English tan, are extremely handsome; also available with stiff backs, covered with attractive leatherette. Either choice comes with or without handles. Four expansions—3 to 13 inches—holds punched or slotted material. Special Button over handle flaps and weather flaps are available on special order.

- Standard Models are Designed for 11" x 8½" Pages.
- Special Models for 11" x 11" and 11" x 14" Pages available on Special Order.

For Specifications, See Page 22  
*Black Shipped Unless Otherwise Specified.*

Federal Excise Tax Does Not Apply

## THREE POSITION CONTROL

- 1—COMPRESSED—With the control lever in "locked" position, simply push the binder together. Sheets will remain firmly locked until released for reference or changing.
- 2—UNLOCKED FOR REFERENCE—Push the control lever to "expand" and the binder automatically unlocks so it can be opened to a flat position for full page view—no binder gutter.
- 3—CHANGE—With the control lever in the "transfer" position, the telescopic posts can be removed for easy changing of the punched filed material. Slotted material can be changed even easier, with the control lever pushed to the "Expand" position.

These control positions are visible through the windows on the transfer bar to expedite the changing of sheets.

Model 1525EX — 1000 Series

**The Finest Punch Ever Designed  
For Handling All Automotive  
Punching Requirements.**

More punch than any punch—for this is the ONLY large capacity universal punch on the market. It easily and accurately punches a full  $\frac{3}{16}$  inch of material making it ideal for efficiently punching the large volume of catalogs and data sheets in the Automotive field. Long wearing, self-sharpening cutters clean-punch three round  $\frac{1}{4}$  inch and 2 elongated  $\frac{1}{4} \times \frac{1}{2}$  inch holes.

Each heavy duty head is full floating—one easy turn of its knurled screws permits instant removal, addition, or replacement of any of the heads. Model 1525EX is set to punch material for a standard 3 and 4 hole binder. Removable chip pan.

Extra Heads Available

Approx. Shipping Wt.  $8\frac{3}{4}$  lbs.

Packaged Singly

See Price List

Model 1425 — 1000 Series

4 Hole

$\frac{1}{4}$ " hole

This modern heavy duty punch is designed for flexibility and is a quality item for standard Automotive 4 hole punching. Each heavy duty head is moveable, interchangeable and adjustable to make any combination of holes. It easily and accurately punches a full  $\frac{3}{16}$ " of material.

Extra Heads Available

Approx. Shipping Wt.  $6\frac{1}{2}$  lbs.

Packaged Singly

See Price List

Model 4-25 — 25 Series

## MASTER UNO-FILE

For Telephone Directories and  
Similarly Bound Volumes

Here is the most efficient, inexpensive file available for telephone books, bound buyer guides and for any type of bound or stitched reference material. Now you can keep all the unwieldy books in one place for easy quick reference, including large classified and main district telephone books. Actually, with the adjustable wings the Uno-File will conveniently handle any bound reference up to 16 $\frac{1}{4}$ ". Maximum dimension of binding edge 11 $\frac{1}{4}$ ".

Do not use the Multi-Post section. As illustrated, easily removed bars hold material in place. Sturdily built to give years of service. Adjustable wings standard with each cabinet. Comes in modern office gray only. Complete with 8 bars.

Rolling action of bar permits  
easy, quick reference.
